

Course Code PR2AP
Duration 3 days

Overview

This course covers the qualification from AXELOS which represents an extension to PRINCE2®. The course is equally divided between practical exercises and theory as it examines how to use PRINCE2® in an agile context. The course ends with an exam that allows you to achieve PRINCE2 Agile® Practitioner status.

Audience

This course follows on from the PRINCE2® Agile Foundation course and takes you to a position where you can achieve the PRINCE2 Agile® Practitioner status.

Learning Objectives

By actively participating in this course, you will learn about the following:

- ▶ The course explains to delegates how to tailor PRINCE2® to work in the best way possible in an agile context.
 - ▶ It looks at how to blend and weave the principles, processes and themes of PRINCE2® with many of the common ways of working in an agile way.
 - ▶ It examines how to configure PRINCE2® when in different situations and how to incorporate the agile frameworks, behaviours, concepts and techniques in the best way possible to increase the chances of successful project delivery.
-

Pre-Requisites

- ▶ Candidates can sit PRINCE2 Agile® Practitioner if they hold any of the following project management certifications: PRINCE2® Foundation, PRINCE2 Agile® Foundation, Project Management Professional (PMP)*, Certified Associate in Project Management (CAPM)* and IMPA Levels A, B, C and D (Certified Project Director).
- ▶ There is very little time spent on recapping PRINCE2® and therefore out of date knowledge or gaps in understanding of PRINCE2® will put the delegate at a disadvantage as PRINCE2 Agile® builds on the candidates existing PRINCE2® knowledge.

Course Contents

- Fundamentals
- Projects and BAU
- What is agile?
- The PRINCE2 Agile® Journey
